SUMMARY

Product leader and founder with 10+ years across product management, engineering, and 0→1 development. Built and shipped BoloBit, an AI-powered B2B survey and insights platform, from strategy and UX through delivery. Enterprise impact includes $1M in annual savings, 4% year-over-year revenue growth, and 10,000+ man-hours automated per month. Hands-on with Claude Code to accelerate implementation and debugging, with human review and validation.

PROFESSIONAL EXPERIENCE

Founder & Product Manager | *BoloBit* | *Los Angeles, CA* | **2025–Present**

- Built an AI-powered survey and insights platform from 0→1, owning product strategy, UX, roadmap, algorithm design, and end-to-end delivery.
- Designed a streamlined survey creation and launch workflow for business users.
- Developed analysis across three dimensions—sentiment, behavior, and intention—to help interpret responses at the question level.
- Designed a four-quadrant response map and anonymous open canvas to encourage authentic, unprompted feedback.
- Automated post-survey analysis into actionable "What" (predicted business outcomes/impact) and "Next" (recommended actions), reducing insight-to-decision time from days to under two hours.
- Built and delivered the product across strategy, design, engineering, and cloud infrastructure using Node.js, React, Python, PostgreSQL, and AWS. Demo: coderm15.github.io/aditimahajan.github.io/bolobit-demo

2021–2025 | U.S. transition, full-time parenting, and AI upskilling

Product Manager | *Viacom18* | *Mumbai, India* | **Dec 2018–Oct 2021**

- Built a 0→1 ads optimization engine that replaced a third-party tool, delivering $1M in annual savings and 4% YoY revenue growth across broadcast channels.
- Automated 10,000+ man-hours per month through a Traffic Order Management System across six enterprise B2B applications.
- Managed five external vendors, including two development partners, and delivered $110K+ in vendor savings across Wipro and Tessact.
- Led three-year audit cycles with Deloitte, EY, and Reliance; delivered 20+ API integrations and CI/CD via Jenkins.

Product Manager | *High Furtados* | *Mumbai, India* | **Jul 2017–Nov 2018**

- Revived an 18-month-stalled product, shipped an MVP in three months, and earned promotion to Lead Product Manager.
- Built a six-module B2C platform, contributing to 30% customer growth and 90% customer satisfaction.
- Managed five vendors and cross-functional teams across product delivery.

Core Team Member — Product & Sales | *Snaptasker* | *Bangalore, India* | **Oct 2015–Nov 2016**

- Joined the founding team and led product and sales for a B2B marketplace; delivered an MVP in four months.
- Reached 100 transactions in six months, with 30% client growth and 14% revenue growth.

Full Stack Developer | *Tesco* | *Bangalore, India* | **Nov 2011–Jan 2014**

- Built front-end and back-end supply chain modules using .NET and SQL.
- Led a desktop-to-cloud migration that improved load time by 150% and achieved an approximately 0% defect rate; won the Tesco Hackathon in 2013.
