PROFESSIONAL SUMMARY

Technically fluent product leader with 10+ years across product management, software engineering, and 0-to-1 delivery. Built an AI-powered B2B insights platform from concept to production and led enterprise products delivering approximately **$1M in annual savings**, contributing to **4% YoY revenue growth**, and automating **10,000+ work hours monthly**. Combines customer-focused product strategy with practical fluency in APIs, data systems, cloud infrastructure, and ML-powered features.

PROFESSIONAL EXPERIENCE

Founder & Product Manager | BoloBit | 2025–Present | Los Angeles, CA

- **AI insights product:** Built a B2B survey and insights platform from 0 to 1, owning product strategy, discovery, UX, roadmap, analysis design, and delivery.
- Designed sentiment, behavior, and intention analysis to translate feedback into predicted business impact and recommended actions, reducing insight-to-decision time from days to under two hours.
- **Production ML feature:** Defined and deployed a trend-prediction API with Python/FastAPI, scikit-learn Random Forest, AWS EC2, and PostgreSQL RDS; selected signals, established scheduled retraining, and added a fallback for sparse data.
- Owned problem definition, model signals, platform integration, and production operation; used AI pair-programming with human review. Predictions remain directional and are not independently validated.

Product Manager | Viacom18 | Dec 2018–Oct 2021 | Mumbai, India

- Led a 0-to-1 advertising optimization engine replacing a third-party solution, generating approximately **$1M in annual savings** and contributing to **4% YoY revenue growth**.
- Delivered a Traffic Order Management System across six enterprise applications, automating **10,000+ work hours per month**; implemented 20+ API integrations and Jenkins CI/CD.
- Managed five vendors and achieved $110K+ in vendor savings while partnering with business and engineering teams on enterprise workflow modernization.

Product Manager | High Furtados | Jul 2017–Nov 2018

- Revived an 18-month-stalled product and shipped an MVP in three months; delivered a six-module B2C platform contributing to 30% customer growth and 90% customer satisfaction.

Core Team — Product & Sales | Snaptasker | Oct 2015–Nov 2016

- Helped launch a B2B marketplace MVP in four months; reached 100 transactions within six months and contributed to 30% client growth and 14% revenue growth.

Full Stack Developer | Tesco | Nov 2011–Jan 2014

- Built .NET/SQL supply-chain modules and led desktop-to-cloud migration, improving load time by a reported 150%; recognized in a 2013 company hackathon.

PRODUCT & TECHNICAL CAPABILITIES

Product leadership: Strategy, discovery, roadmaps, 0-to-1 delivery, OKRs/KPIs, workflow automation, experimentation, cross-functional execution.
AI/ML products: AI product strategy, Claude API integration, Claude Code, ML-powered features, scikit-learn Random Forest, AI-assisted prototyping.
Platforms & engineering: Python/FastAPI, Node.js, React, PostgreSQL, MongoDB, REST APIs, SQL, AWS EC2/RDS/S3/CloudFront, Jenkins CI/CD, Tableau.

EDUCATION & CERTIFICATIONS

IIM Kozhikode: Diploma in Product Strategy (Top 1%, 92% aggregate) | **GGSIPU:** B.E., Computer Science
IBM AI Developer (2024) | Certified Scrum Product Owner (2023) | Google Data Analytics | Digital Marketing Analytics, University of Illinois
